Leadomos

Find local clients, not data dumps · leadomos.com

LOCAL BUSINESSES · PUBLIC DATA

Your next clients are one search away — with everything to reach out.

Type what you sell and where. **Leadomos** checks local businesses' public listings live, cross-references **their website, socials and reviews** and gives you real prospects with the **phone and email they publish**.

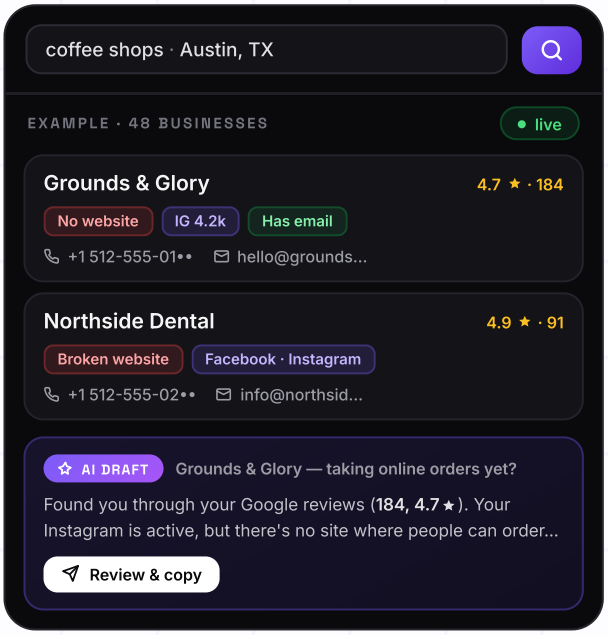
~1 min what a live search usually takes

50 free credits when you sign up, no card

100 businesses per search, at most

4 modes of search, from quick to full

Data from the businesses' own public listings and pages, never guessed. Any business can opt out at leadomos.com/remove.



What you get for each business

depending on the mode and your plan

- Website status
- Phone it publishes
- Email it publishes
- Instagram
- Facebook
- TikTok
- YouTube & X
- Rating & review count
- Up to 50 reviews
- Hours & services
- Business photos
- LinkedIn decision-makers (Business)

B2B databases never have the corner coffee shop. Leadomos does:

Live from the map, not a stale CSV
It checks public listings the moment you search: if it opened last month, it shows up.

Pay only for what's found
See the maximum before you search; you're charged for what was obtained and the rest goes back.

The first message, already drafted
From the Pro plan, AI reads their reviews and website and drafts an email and a WhatsApp message for you to review.

Filter by what they're missing
No website only, a minimum rating, closed businesses left out: exactly the ones who need what you sell.

EVERYTHING LEADOMOS DOES

From a search to a client, all in one place

Search, filter, draft the first message and stay organised. What now takes you an afternoon between Google Maps and a spreadsheet.

1 Niche + city
"Coffee shops in Austin". "Auto repair in Brooklyn". Whatever you sell, wherever you want.

2 Choose what to unlock
Website contacts, socials, reviews, photos or the AI draft. You see the maximum before you search.

3 Call, write, close
With their phone, their email and all the context. You decide how to reach out.
